

CEREXIO IQ AND OQ SYSTEM

Unlock unparalleled capabilities with the Cerexio IQ and OQ System, revolutionising your ability to tackle tasks effortlessly, such as calculating dilution factors and crafting serial dilutions with unparalleled precision. The system seamlessly generates automatic reports, providing valuable insights for troubleshooting and ensuring compliance with rigorous auditing standards.

Immerse yourself in the forefront of industrial excellence – welcome to the future with Cerexio IQ and OQ System.

KEY HIGHLIGHTS

Reliable Qualification Starts With Cerexio IQ and OQ System

Elevate your operational efficiency to new heights with the Cerexio IQ and OQ System! Transform your Installation Qualification (IQ) evaluations by integrating this cutting-edge system, meticulously designed to provide comprehensive documentation management, ensuring precise and correct installations.

UNIVERSAL SMART LIBRARIES

Explore excellence through the extensive Smart Libraries of the Cerexio IQ and OQ System, featuring a comprehensive collection of IQ/OQ/PQ protocols that align with global standards for laboratory technologies. Our suite of solutions, spanning both automated and traditional protocols, ensures compliance and efficiency in every facet.

BULLETPROOF PERFORMANCE VALIDATION

Elevate your validation processes with the IQ and OQ Library System, offering in-depth Computer System and Method Validation. Our solution guarantees compliance and reliability in validating the functionality and methods of your computer systems, ensuring outstanding performance and alignment with industry standards.

UNPARALLELED DATA SECURITY PROTOCOLS

Immerse yourself in intelligent testing and secure digital archiving of data records with the Cerexio IQ and OQ System. Effortlessly streamline audits with our cutting-edge testing solutions, providing top-notch measures for data security.

USER-FRIENDLY SIMULATION DESIGNER

Cerexio IQ and OQ System introduce an intuitive dashboard for intricate tasks and protocol design through simulation, AR/VR, and digital twins. Simulate tasks such as heating, shaking, or centrifugation steps effortlessly.

EFFORTLESS COLLABORATION PLATFORMS

Cerexio IQ and OQ System allow secure sharing of protocols globally, fostering collaboration among researchers, laboratorians, and specialists across different labs. Accelerate collaboration, save time, and reduce costs.

AI-INTEGRATIVE COMPLIANCE

Cerexio IQ and OQ System incorporate UDI (Unique Device Identifier) and other policy markers into AI protocols, notifying users of any compliance breaches during operations. Ensure adherence to security acts, environmental and social obligations, and electronic record policies seamlessly.

CEREXIO IQ AND OQ SYSTEM MODULES

Cerexio IQ and OQ System: Ensuring your Quality Levels Stick to Sky Limits

Bolster your operational confidence during Operational Qualification (OQ) assessments, as we guarantee thorough documentation of every protocol, demonstrating that each function operates precisely as anticipated. Experience seamless excellence with the Cerexio IQ and OQ System – your key to unmatched performance and confidence.

Automated Compliance Checker

This solution incorporates UDI (Unique Device Identifier) and other policymakers into AI protocols, notifying users of any compliance breaches during operations, including security acts, environmental and social obligations, and electronic record policies.

Collaborative Platforms

Cerexio IQ and OQ System enable the secure sharing of protocols globally, fostering collaboration among researchers, laboratorians, and specialists across different labs. This accelerates collaboration, saving time and costs.

Equipment Monitoring

Cerexio IQ and OQ System users receive digital assistance for installing and qualifying monitoring apparatus. The solution ensures complete functionality and compliance by establishing general procedures for conducting IQ/OQs.

Industrial Machine Monitor

At the forefront of optimising industrial risk assessment, process mapping, and process validation, Cerexio IQ and OQ System cover the entire lifecycle of industrial assets, from preconditions to the end of their usable lifetime.

CEREXIO IQ AND OQ SYSTEM MODULES

Qualification Service Optimiser

The central information hub allows quality assurance teams to consolidate all qualification data in a standardised and easily retrievable manner. This ensures seamless traceability throughout the life cycles while maintaining data integrity.

Risk Recovery System

With robust error-handling capabilities, this solution swiftly identifies and addresses issues. It optimises test accuracy, reproducibility, and sensitivity while prioritising disaster recovery and maintaining impeccable data storage accuracy.

Sensitive Data Privatisation

Cerexio IQ and OQ System prioritise data integrity by implementing high-security data protocols such as encryptions, 3-factor authentication, blockchain, and other data privatisation methods. This ensures sensitive information is accessible only to authorised parties.

Simulative Protocol Designer

Cerexio IQ and OQ System introduces an intuitive dashboard facilitating intricate tasks and protocol design through simulation, AR/VR, and digital twins. Users can simulate tasks such as heating, shaking, or centrifugation steps.

Smart Instrumentation and Calibration

Cerexio IQ and OQ System streamline smart instrumentation and calibration with comprehensive protocols and seamless integration for uninterrupted efficiency and precision. This includes real-time monitoring, automated data recording, and customisation.

BENEFITS

Precision, Compliance, Efficiency: Cerexio IQ and OQ System Delivers Excellence

Elevate your validation game with Cerexio IQ and OQ System: Unleash the power of a vast protocol library for seamless installation, Operation, and performance qualifications. Ensure global standard compliance effortlessly through intelligent testing and secure digital record archiving. Choose Cerexio for enhanced validation, guaranteed functionality, and resource integrity. Here are some of the benefits of the Cerexio IQ and OQ system that you cannot afford to miss.

100% TESTING ACCURACY

Experience its cutting-edge approach guarantees 100% accuracy, instilling confidence in results and validating equipment, instruments, and software.

FUTURISTIC AUTOMATION AND INNOVATION

The system ensures seamless calibration procedures, empowering teams with a self-service dashboard for independent data management and smarter troubleshooting capabilities.

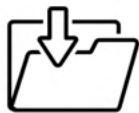

NO RISK OF DATA LOSS

Preserve and access critical data records reliably, providing peace of mind and safeguarding valuable information for future reference and compliance.

RISK-FREE OPERATION

Cerexio IQ and OQ System minimise the risk of errors and varying interpretations, ensuring accurate experiment execution. This prevents the loss of funding and research time.

SECURE DIGITAL ARCHIVING

Ensure the confidential and intact storage of critical data records with Cerexio IQ and OQ System. The secure digital archiving feature enhances data integrity, compliance, and accessibility for efficient audits and inspections.

UNIVERSAL INDUSTRY FACILITATION

Cerexio IQ and OQ System cater to 20+ industries, making it the go-to protocol library system for bioanalysis, cell biology, diagnostics, drug discovery, food testing, general liquid handling, genomics, lipidomics, and more.

INDUSTRIES

Cerexio IQ and OQ System is a groundbreaking solution tailored for diverse industries, offering unparalleled validation, compliance, and operational efficiency benefits. With its robust features, including a vast protocol library, intelligent testing, and secure data archiving, Cerexio IQ and OQ System become indispensable assets for those seeking to elevate their validation procedures and ensure critical resources' seamless functionality and integrity. Discover the main industries that are mainly facilitated by this unrivalled digital technology suite:

- Aerospace
- Agriculture and Agribusiness
- Biotechnology
- Chemicals
- Environmental Sciences
- Food and Beverage
- Healthcare
- Manufacturing
- Petrochemicals
- Pharmaceuticals
- Renewable Energy
- Research and Development

CONTACT US

Don't Hesitate to Get in Touch With Us for Further Clarification or to Book a Demo This Week. The Contact Particulars of Our Company Are as Below:

 Tel: +(65) 6762 9293

 Email: info@cerexio.com

 Address: 21, Woodlands Close, #05-47 Primz Bizhub, Singapore 737854

 www.cerexio.com

 Tel: 1800 270 947

 Email: info@cerexio.com.au

 Address: 81-83 Campbell Street, Surry Hills, NSW 2010, Australia
